My Dear Ken,

Enclosed is the Jockey Wheel you require sent express from Marconi to me and by air at once to you. Thats the fastest possible and we have to thank Mr. Smees for his speed.

Your telegrams and reports are being studied and I think it would be safe to say we are making progress.

Have patience but persist with those lads in New Delhi who, after all, have not the advantage of your technical skill. You've made a superb job of your bit and the success of the whole Indian Hell scheme now depends on carrying your success, by some means or other, to the other Indian and Pakistan Posts. In this your patience and persistence may well be the determining factor.

In any case, as you no doubt know, you are receiving all possible support from me.

Kind regards,

Yours sincerely,

M. M. Laughlin
