

B. Colonies which will take London Press Service by Hellschreiber.

The above, as asterisked, plus the following:-

- The Windward Islands
- The Leeward Islands ✓ *not yet 1/12*
- The Gambia ✓
- Uganda ✓
- Cyprus *not yet 1/12*
- Sarawak *not yet 1/12*

Note: (i)

Tanganyika) (Have not yet signified their intentions)
 Zanzibar)
 Nyasaland)

Note: (ii)

The Bahamas) (Will probably take a partial London Press
 Barbados) Service with Hellschreiber apparatus used
 primarily for reception of Reuter)

Note: (iii)

Gibraltar will continue to receive London Press Service from London by Air Mail.

C. The cost of reception of London Press Service by Cable and Wireless for the East African Regional Information Office is £798 a year. This excludes the cost of editing and distribution, which is done by the Information Office and would be the same whether London Press Service were transmitted by Morse or Hellschreiber. On further enquiry I find that the West African Regional Information Office does not take London Press Service, so no comparison is possible.

Yours sincerely,

(O. J. Whitley)
Information Department.
