WINDJAMMER - ARCACHON.

Sent herewith is a photograph, taken on 18.2.43., of a new Radionavigation Beam Station of the "Windjammer" type.

2. This is situated on the high ground in the FORET d'ARCACHON about 1 m. S. of the town of ARCACHON, at pinpoint:-

44°38'54" N.
10°10'07" W.

G.S.G.S. 4040B. Sheet 191 N.W.
Grid Ref.: 220668
Altitude: About 290 ft. a.s.l.

3. The site has been covered twice previously, viz. on 29.6.42 and 7.12.42. On the earlier photographs there were no indications even that any new construction was contemplated but on the later date turntable had been constructed and carriage erected; also two at least of the three large huts has been built.

4. Operational buildings and quarters consist of two large nearly square huts and a long narrow hut, all more or less symmetrically situated to the S. of the array.
