

(1)

Hell Fabrik-Berlin.
(C.A.F.T. Assess. Report E126A)

(Investigation by S/Ldr. Barker.)

Dr. Ing. Rudolf Hell's factories were engaged on

(1) Development of Hell Teleprinters. The Hell system of teleprinting was apparently well known before the war being used throughout Germany for Press communication and also in America. A small portable model was developed for the Wehrmacht. Only the development was done by Dr. Hell; models for press and Wehrmacht were being made by Siemens Halske.

(4) High speed morse writers - up to 500 words per minute for Press Luftwaffe and Wehrmacht use.

See also Section 8.3 para 4 further projects.
